

# AMERICAN FORK JR. HIGH

## A NEXT GENERATION SCHOOL

We are excited to announce that starting with the 2023-24 school year, AFJH will provide a Chromebook to every student. Students will use them at home and at school to achieve higher levels of learning and academic success. This deployment of technology is often referred to as a “One-to-One” model because each student is issued a device. This will allow our teachers to leverage technology to better prepare our students for college, career, and community readiness.

### Advantages of One-to-One Model

The use of one-to-one devices in schools has been shown to increase opportunities for engagement by creating options for how students can learn and demonstrate understanding.

### Responsibilities & Expectations

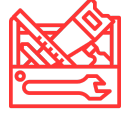

We hope you are excited about this opportunity. We have had outstanding parental support with students taking good care of musical instruments, expensive textbooks, and other school equipment when they are trusted with those responsibilities. We trust you and our students with this task.

### Safety, Security & Support

There are no substitutes for parental interest and having lots of great discussions with your students, but we also have a number of tools that can assist parents and support students in learning about digital safety. In the table below, you can see a highlight of support for students and parents. As we approach the start of the upcoming school year, we will provide more information about the ASD filters as well as share additional details for each tool including the steps needed to sign up for and use the tool.

Student Expectations	Parent Expectations
Bring it to class every day	Reinforce proper care of device
Take good care of device	Monitor device use at home
Use it to connect, discover, create and share	Sign Alpine Instructional Property Agreement
Charge device every night	Support your student’s learning

### Important Information About Student-Issued Computers

Security & Filters	Canvas	Parental Control Apps	Digital Citizenship	Troubleshooting & Repair
 <p>All student computers will be filtered at home and at school through ASD filters and firewalls</p>	 <p>Parents have the opportunity to observe student assignments and courses</p>	 <p>Parents will have access to control, track, and monitor devices used at home</p>	 <p>Lessons have been prepared to explicitly teach how to manage this responsibility</p>	 <p>Help guides and “loaner” devices will be available while we work to fix your device</p>

Teachers and teams will continue to work diligently to create learning environments for our students to obtain the knowledge, skills & dispositions needed for our changing world. We look forward to the connections, discoveries, and creations that will come from this opportunity.

Sincerely,  
AFJH Administration and Staff
