Administration Message

The 2016-2017 school year is off to a great start! Your students are very engaged and working hard and teachers are reaching out to meet the various needs of all students. Thanks for all the support and encouragement that you give to your children at home, with regards to their school work. We have added a homeroom this year as a part of your students experience here at CVJH. During this time students can work on homework, read, or go to their classes where they are behind academically and remediate their deficiencies. Students with all passing grades for first quarter will attend a donut party in their honor. We appreciate all you do to support your child's success at CVJH.

SCIENCE FIELD TRIP NEWS

Mr. Pusey & Ms. Damarjian

On September 20 & 21 the biology and earth science classes took a field trip to test the Provo River ecosystem. Buses came each period to take students to Nunns Park where they examined the Provo River. Specifically, they noted physical characteristics of the river, examined macro-invertebrates, and tested the water for various water contaminants. This field trip will prepare them for another examination of the river further upstream during the Rivers Field Trip.

Rivers was on Friday, September 30. Thanks to the PTSA, administration, parents, and community for supporting us in this educational endeavor.
