8th Grade Course Descriptions

Required Classes

English 8: This course continues to develop students' skills in reading (literature and informational texts), writing (informational and argument texts), speaking, listening, and grammar.

English 8 ALL: This project-based class requires above grade-level reading, writing, and thinking skill. Prior approval is required based on district testing.

Math placement is based on teacher recommendation:

Intermediate Math 2: This course focuses on deepening students' understanding of algebra including an introduction to functions, expanding number systems to include irrational numbers, and building on geometry concepts introduced in Intermediate 1.

Intermediate Math 2 with Lab: By teacher recommendation only. Concepts are pre-taught in the lab for the regular math class. Students are accountable for positive behaviors. Preparation, participation, attendance and punctuality are required. Daily class.

Secondary Math 1 Honors: For 8th grade students who have successfully completed 7th grade Accelerated Math class. Students will be integrated into the 9th grade Secondary 1 classes.

Integrated Science 8th: Students will explore the relationship between matter and energy in this hands-on and interactive course. Chemistry, Physics, Ecology, and Earth Science are woven together to tell the story of how matter and energy explain the natural phenomena we see in the world around us.

US History: This course covers events and issues from the Age of Exploration through Reconstruction and the western movement, emphasizing the 18th and 19th centuries. Topics will include exploration, colonization, the Revolutionary War, constitutional issues, nation building, the Civil War, Reconstruction, and the western movement.

Health: This course is designed to inform students about themselves and their surroundings. It covers hygiene, mental health, circulatory system, respiratory system, first aid (DPR), substance abuse, physical fitness, and other related areas.

8th Grade PE: Skills and techniques in a variety of team and individual sports will be taught. Running and exercise skills are taught to improve physical fitness.

Elective Courses

Art Foundations 1: Introduction to visual arts and basic design concepts while building skills through various mediums and fun projects. \$10.00 fee.

Art Foundations 2: Further exploration of the visual arts and mediums, while building meaningful content through fun, culturally and artistically diverse projects. \$10.00 fee.

Intro to Drawing: Exploring and building basic drawing skills and design concepts through fun projects and mediums. \$10.00 fee.

Drawing 1: Intermediate course for improving and developing drawing skills through various techniques and mediums. Focus is mainly on black and white drawing. \$15.00 fee

3D Design/Crafts 1: Exploration of 3 D art and basic design through various cultural folk arts, including fun paper and fabric arts projects. \$20.00 fee

3D Design: Crafts 2: Prerequisite: Crafts 1. Builds on the skill sets learned in Crafts 1 while exploring more fun 3-D projects. \$20.00 fee

Digital Photography: Includes the inventive use of light, photographic equipment and the computer to create photographic works of art. There is an emphasis on the use of the computer to edit works of art. This course is designed to develop higher-level thinking, art-related technology skill, art critics, art history, and aesthetics. Prerequisite: Art Foundations 1 or 2. \$10.00 fee

Digital Photography II: Students will build on their picture taking skills, and learn and apply enhanced photo editing skills. Students will work on self-directed projects to help build a portfolio. Prerequisite: Completion of Digital Photo I with a C or higher grade. \$10.00 fee

Art 2D: Animation: Exploration of the history and techniques of early animation through basic drawing and animation projects. \$10.00 fee

Ceramics 1: Develops basic skills in the creation of 3D forms and pottery from clays. With an emphasis on studio production, this course is designed to develop higher-level thinking, art-related technology skill, art criticism, art history, and aesthetics. \$20.00 fee

Ceramics 2: Applies the basic skills learned in Beginning Ceramics to create three-dimensional works of art of higher quality with an introduction the potter's wheel. With an emphasis on studio production, this course is designed to develop higher-level thinking, art-related technology skills, art criticism, art history, and aesthetics. Prerequisite: Ceramics 1 \$20.00 fee
