Kevin Baillargeon is a 7th grade student at American Fork Junior High who loves to learn, is always positive, and has Phocomelia Syndrome, a rare disease that means he was born without arms or legs. Transporting Kevin and his wheelchair is his family's greatest challenge, and they need our help.

In an effort led by the National Honor Societies, American Fork High School, Lone Peak High School, American Fork Jr. High and Mountain Ridge Jr. High are joining forces to purchase a wheelchair accessible van for Kevin and his family. We are holding *Kevin's Karnival*, an extraordinary fun-filled day for families and friends, and all proceeds raised from this event will be donated towards purchasing a van.

Join us at Kevin's Karnival to create a day of fun memories as we change Kevin's life forever!
