Things to look for and take notes on while reading your geographic adventure:

- 5 Themes of Geography.** Location, Place, Movement, Human-environment interaction, Region.
- A map of your setting.** Either found in the book, or researched on the internet. Must be self produced.
- Timeline of events.** Keep track of dates and events throughout the story.
- Problems to address in your advice column.**
- A person to feature in your obituary.** They do not have to be dead in reality, this is a biography.
- An issue you have an opinion about.** This will become your editorial article.
- 2 student choice items.** Ex. Marriage announcement, advertisements, horoscope, for sale, or want ads.
